R17,270

EVEN REALITIES G2A AR Glasses (Green)

The G2A glasses feature an elegant, classic frame while offering advanced augmented reality capabilities. They display real-time translations, help you follow the progress of meetings, remind you of key events, and allow for convenient use of a voice-controlled teleprompter. Weighing just 36 g, the frames are made of magnesium and aerospace-grade titanium, and the refined optical system ensures a high level of comfort. The device is further enhanced by IP65-rated water and dust resistance, long battery life, and an extensive ecosystem of apps available on Even Hub.

Full Control Over Your Conversations

Business meetings, presentations, client calls, and lectures require focus and quick access to information. The Prep Notes feature lets you prepare key notes, numbers, and pointers before the call even begins, then displays them directly in your field of view. When an unfamiliar name, term, or reference to a specific topic comes up during a meeting, the intelligent AI Cues system will discreetly

display the necessary context. This allows you to maintain natural eye contact with the person you’re speaking with without taking your eyes off the conversation.

AI Summaries and Translations

Extensive artificial intelligence features make EVEN REALITIES G2A a practical tool for your daily tasks. The Conversate feature transcribes the conversation and creates a summary available in the Even Realities app. The glasses also offer real-time translation in 35 languages, making communication during business trips, conferences, or international meetings much smoother. All information is displayed directly in front of your eyes, allowing you to remain fully focused on the conversation.

Teleprompter and Personal Assistant

The built-in voice-controlled teleprompter ensures that your prepared speech, presentation, or outline remains constantly in view. This feature helps you stay confident during public speaking engagements, business presentations, or everyday meetings. The system also integrates a calendar, reminders, notifications, and to-do lists, helping you stay in control of your daily schedule. You also have access to the Even AI assistant and touchless navigation.

Style, Lightweight Design, and Advanced Optics

EVEN REALITIES G2A are designed to look nothing like typical electronic devices. Their thoughtful design ensures that the glasses complement both formal business attire and everyday outfits perfectly. The frame is made of magnesium and aerospace-grade titanium, ensuring the device is both durable and lightweight. The new-generation, multi-coated lenses are 30% thinner than those used in the previous version and offer peripheral and pass-through vision. It is also possible to order prescription lenses with strengths ranging from -12.00 to +12.00, custom-made based on each user’s individual prescription.

Long battery life and convenient operation

The glasses are designed for extended use. The high-capacity battery provides up to two days of use, and the included charging case allows you to recharge the battery up to seven times. Dust and

water resistance, certified to IP65 standards, ensures the device performs well in a variety of conditions. From the Even app, you can conveniently change settings, customize the operation of individual features, and manage the entire device ecosystem.

The Even Ecosystem and Complete Privacy

The Even Hub provides access to a constantly evolving platform featuring apps for productivity, entertainment, and daily organization. You can also expand the glasses' capabilities with the Even R1 smart ring (sold separately), which lets you control the device's functions via taps and scrolling, and additionally monitors selected physiological parameters. The manufacturer also places great emphasis on privacy, which is why the glasses do not include a camera, and your data is not stored in the cloud without your explicit consent. All necessary processes use encryption, and sensitive information is properly secured.

Included in the set

- G2 glasses (with selected lenses)
- charging case
- cleaning cloth
- USB-C cable
- user manual

Manufacturer	EVEN REALITIES
