AMD EPYC MILAN 64-CORE 7713 Processor

Model: 100-000000344A

Manufacturer: AMD

EAN: 9999923386431

Product Code: 1719102

R45,440

The **AMD EPYC 7713A** is a high-performance CPU designed for data centers and enterprise applications. With a base frequency of **2GHz** and a maximum boost frequency of **3.675GHz**, this processor is built to handle demanding workloads with ease. Featuring **64 cores** and **128 threads**, the EPYC 7713A provides exceptional parallel processing capabilities, making it an ideal choice for virtualization, cloud computing, and high-performance computing environments.

Equipped with a substantial **256MB cache** and a thermal design power (TDP) of **240W**, this CPU ensures efficient performance while maintaining optimal thermal management. The **EPYC 7003 family** leverages advanced **PCIe 4.0 x 128** technology, allowing for faster data transfer rates and improved connectivity for high-speed devices. This OEM packaged processor is compatible with **SP3 sockets** and supports both **1P and 2P configurations**, providing flexibility for various system architectures.
