

Kensington Slim NanoSaver Combination Laptop Lock

Model: K60603WW

Manufacturer: KENSINGTON

EAN: 085896606031

Product Code: 1719148

R1,305

With today’s slim laptops featuring the Nano security slot, a typical cable lock head may fit. However, as the laptop itself is so thin, once the lock is attached the laptop will not lie flat since the thickness of the lock is greater than the laptop. The Slim NanoSaver® Combination Laptop Lock is the strongest keyless locking solution that allows ultra-thin and 2-in-1 laptops with nano lock slots to lie flat and stable.
