DELIGHTFUL DESIGN

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Perforated front panel, while the side panel is made of tempered glass with an aesthetic black print. The excellent-looking black steel turns the box into an elegant work of art. The Irid 505 impresses not only with its functionality, but also with its great design, which will add class to your room, enjoying not only your eye.

2 FANS INCLUDED

Irid 505 fights heat with its two silent 120 mm fans. High-quality 120 mm fans control the conditions inside and ensure optimal temperature. If you need, you can install additional fans (6 in total) including 140mm at the front and on top.

FITS FIVE SSDs

To offer you complete freedom of quick-access data management, Irid 505 allows you to install up to five SSDs. In addition, you have enough space for two standard HDDs.

THREE TYPES OF MOTHERBOARD? - NO PROBLEM!

The case is compatible with 3 motherboard size variants. You can easily fit a Mini-ITX, Micro-ATX and ATX inside without worrying about finding matching components.

FUNCTIONAL USB 3.0 PANEL

For maximum comfort of use, the top of the case comes with as many as four USB ports, including two USB 3.0 port. We have conveniently placed two jacks close to you, so that you can easily plug in your headphones and microphone.

SLOT-IN MECHANISM FOR DRIVES

We wanted to ensure maximum comfort of use, which is why you can simply slot in your drives. This simple mechanism enables you to install and uninstall SSDs and HDDs without having to break out the tools again.

EQUIP IT WITH LIQUID COOLING UP TO 240 MM

Despite the small size, we want you to give you as much freedom as possible. If needed, you can install a liquid cooler up to 240 mm! Irid 505 offers complete freedom when it comes to hardware and a wide range of cooling options.

3 DUST FILTERS

The case features two dust filters, allowing you to enjoy spotless cleanliness for a very long time. Genesis Irid 505 has been designed to ensure the best user experience possible.

ALWAYS-STYLISH EXTENSION PORTS

The case comes with screw-in port covers which can be reattached at any moment. Open only the ports you need and close those which you are no longer using. With Irid 505, everything looks clean and satisfying.
