

Samsung HW-LS70H Black Wired & Wireless

Model: HW-LS70H/EN

Manufacturer: SAMSUNG

EAN: 8806099004095

Product Code: 1720922

R9,540

Expansive and immersive soundstage

True 3.1.1ch Immersive Sound

Powered by a 3.1.1ch architecture, Music Studio 7 projects sound forward, outward and upward to create a surround soundstage that draws you in. Advanced waveguides and precise pattern control minimize interference, allowing each detail to come through with exceptional clarity.

Next-level harmony in immersive surround sound

Q-Symphony

Experience sound that moves as one. Q-Symphony analyzes each scene and automatically detects the position of your TV and Music Studio 7 speakers, calibrating and synchronizing them for optimal performance throughout the room — supporting up to five speaker units.

Hear the depth of detail

Hi-Resolution Audio

With Hi-Resolution Audio, Music Studio 7’s Super Tweeter reproduces ultra-high frequencies up to 35kHz, supported by advanced decoding, signal processing and output up to 24-bit/96kHz. From delicate overtones to rich harmonics, subtle details come through with striking clarity.

Design that defines the art of sound

Dot Design by Bouroullec

Created by Erwan Bouroullec, The Dot is more than a design element. Placed at the heart of the speaker, it becomes the point where music flows through, bringing together timeless beauty and cutting-edge technology.

Sophistication in its simplest form

Unique Design

Bouroullec’s minimal design gives Music Studio 7 a calm, refined presence. Defined by clean geometry and smooth curves, it blends naturally into your decor with a refined sense of balance.

Sound tuned to the scene

AI Adaptive Sound

Get the optimal listening experience for each scene with AI Adaptive Sound. Music Studio 7 recognizes the type of content you’re watching and automatically adapts audio settings to produce clear voices and detailed sounds.

Realistic sound through minimal distortion

AI Dynamic Bass Control

Get smooth, clear bass with AI Dynamic Bass Control. Using pre-trained machine learning, Music Studio 5 analyzes distortion caused by the woofer unit’s vibration and corrects it — so you can enjoy sound that stays true to the original content.

A sound experience you can feel around you

Dolby Atmos®

Experience sound with added dimension through Dolby Atmos. With layered audio and sharper detail, it creates a more lifelike, fuller soundstage that brings greater depth and realism to your listening experience.

Elevate your spatial audio experience

Eclipsa Audio

Experience Eclipsa Audio, 3D spatial audio technology that delivers immersive, powerful soundscapes like never before.

Sound calibrated for your space to perfection

SpaceFit Sound Pro

Enjoy stunning sound that's tuned to your room with SpaceFit Sound Pro. This feature analyzes the space and adjusts the audio accordingly — even optimizing bass — for maximum clarity and immersion. Now you can enjoy the most ideal sound in your space or environment.

Catch every word without distractions

Active Voice Amplifier (AVA) Pro

Experience flawless dialogue through Active Voice Amplifier (AVA) Pro. It senses background noise in your space and on screen, then enhances voices so speech stays clear, focused and easy to follow.

Enjoy consistent and balanced sound wherever you are

Wide Sweet Spot

Thanks to the built-in waveguide, Music Studio 7 disperses audio evenly, delivering consistent clarity and volume across the listening area — so sound feels natural and well-balanced from different positions in your space

Stable sound every time you switch content

Auto Volume

Auto Volume keeps the volume level smooth and balanced across different content sources by analyzing incoming audio signals in the background. No more ups and downs — just smooth, comfortable listening as you hop between shows, games, or live TV.

Engineered by sound innovation experts

Samsung Audio Lab

Crafted for exceptional sound, Immersive is tested and tuned at our California Audio Lab. World-class audio engineers apply advanced acoustic technologies to deliver balanced, room-filling sound that feels natural and immersive.

Connect and control your sound the easy way

Samsung Sound App

Enjoy seamless setup and discovery, total control, and a personalized experience that unifies your Samsung sound ecosystem — let the app handle the hard work as you breeze through effortlessly.

Connect multiple devices for an amplified sound experience

Group Play

Bring sound together for a fuller experience. Group Play wirelessly connects Music Studio 7 with other speakers into one synchronized system. Link up to 10 compatible speakers in total and enjoy powerful, shared sound for moments spent together.

Double the sound, double the experience

Stereo Play

Experience sound with twice the depth and presence. Through Stereo Play, you can pair two Music Studio 7 units to create a wide, room-filling soundstage. With left and right channels working in harmony, audio feels more immersive, detailed and balanced.

Sound quality delivered seamlessly

HDMI eARC

Bring movie theater-quality sound home. With HDMI eARC designed to deliver richer detail and expansive surround audio, Immersive lets you feel the depth and impact of movie-theater sound right in your living space.

Compatible with SmartThings App

SmartThings App

The SmartThings app seamlessly connects your devices, creating a unified ecosystem that enhances everyday living. It ensures your daily moments flow naturally as one connected experience.

Get straight into the music with double tap access to Spotify

Spotify Tap

Play music instantly with the world’s first device featuring Spotify Tap over Wi-Fi. Double tap to launch a playlist of recommended songs tailored to your taste. Want something different? Double tap again to get a fresh playlist — no phone needed.
