EcoFlow Wave Car Vent Seal Magnetic Vent Cap

The EcoFlow Wave Car Vent Seal Magnetic Vent Cap is specially designed for the EcoFlow WAVE series. It allows you to conveniently route your air conditioner's pipes to the interior of your car, while sealing the opening to prevent cool air from escaping and heat from the outside.With universal dimensions of 650 × 1060 mm, it fits perfectly into most vehicles such as SUVs, pickups, campers and caravans.

Intuitive installation and maximum efficiency in all conditions

The use of built-in magnets makes installation of the overlay take just a few moments - no tools, no effort. The product is also distinguished by its water resistance and provides excellent thermal insulation. This solution is ideal for all seasons - it improves comfort and increases the efficiency of both cooling and heating.
