Kodak S3060 ADF scanner 600 x 600 DPI A3 Black, White

Model: 8001711

Manufacturer: KODAK

EAN: 041778001714

Product Code: 1721156

R70,290

Ideal for any document-heavy process that needs to convert paper into business-critical information at the edge of your workflows.

Built for today, ready for tomorrow

The KODAK S3060 Scanner is ideal for any document-heavy process that needs to digitize business-critical data trapped on paper at the edge of your processes. With industry-leading image enhancement technology to optimize OCR accuracy while reducing file size, reliable paper handling to minimize document damage and time spent at the scanner, and free to use software that empowers users to distribute data to where it is needed from the push of a button, the S3060 helps improve the productivity of your staff, improve the speed, accuracy, and efficiency of your processes, and improve profitability. Add to this our enterprise-level security and integration features and you have a scanner that makes sense for all organizations today and tomorrow.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

On-board image processing

Slashes demands on your PCs to speed scanning and boost efficiency

Simplified scanning

Large intuitive color touchscreen, personalized workflows, and Smart Touch technology to automate complicated tasks

Scan directly to apps

Import information directly into applications with TWAIN, ISIS, or RESTful API based scanning

Enhanced security

Secure-boot solution, encryption over wire for network traffic, and USB 3.2 Gen 1x1-compatible

Perfect Page Superior Image Quality

Because image quality and accuracy are everything for superior OCR, searchable pdf’s and barcode reading, Perfect Page technology turns even poor-quality originals into crisp images automatically. Features like streak removal, background smoothing, image edge fill, and others greatly enhance quality. You’ll minimize manual data entry and be ready for future technologies like RPA (Robotic Process Automation) to further streamline repetitive tasks and free up your workforce.
Benefits:
- Maximize data readability, OCR accuracy, automation rate, profitability, file transportation, and speeds
- Minimize file size, storage costs, data loss, automation failure total cost of processing, waiting times

Smooth Document Handling

A straight-through paper path and adjustable feeders enhance smooth, safe document handling. Mix weights and sizes in any batch without a hiccup from the big 300-sheet feeder with controlled exit stacking for mixed-batch handling accuracy. Safeguard originals with Intelligent Document

Protection (IDP) that alerts you to issues before they become jams, as do our superb multi-feed detection sensors.

Benefits:

- Faster with minimal misfeeds to minimize the total time spent at the scanner
- Better security with Intelligent document protection to reduce document damage and lost data

Built-in Intelligence

The S3000 Series produces the very best image quality capable from within the scanner, without any impact on the rated speed of the scanner or impact on the bandwidth of the PC. The built-in Image Processing takes away that dependence on a high-powered PC, with a powerful embedded processor that handles image processing at the scanner rather than the PC. And Intelligent Barcode Reading produces the most accurate data extraction results and makes document prep easier.

Share Data at the Touch of a Button

Documents that are scanned may need to be distributed to individuals, teams, or systems for automation or storage to be actioned. This can require a multi-step process of scanning to PC, finding the file, renaming the file, attaching to an email, or opening and finding a location in a system.

This scanner offers a large, intuitive color touchscreen and the ability to quickly configure personalized buttons for multiple users. Plus the simplicity of bundled Smart Touch technology, which allows you to get data where it is needed from the push of a button, improving scanning speeds and minimizing post-scan steps.

Multi-User Connectivity & Security

Not being able to access data because you cannot use the scanner can be frustrating – processes are put on hold. In work environments where multiple people need to occasionally scan batches, a dedicated scanner per person makes little financial sense and so teams go through the awkward, time-consuming process of sharing. The network capability of the scanner means that the scanner is visible to any PC on the network.

Benefits:

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. - This allows the scanner to be shared without any moving of laptops or wires, or the need for purchasing of extra IT equipment – saving time and money
- Secure your scans over a network with HTTPS and TLS encryption standards.
- Make IT happy with a secure boot solution to ensure only trusted firmware can load

Take Your Information Further

Businesses need to send information in the right format, to the right location such as network folders, FTP, cloud destinations like SharePoint, or other ECM systems to streamline their processes. The scanner allows for easy import of information into TWAIN, ISIS, and Linux based scanning applications. For further connectivity, our RESTful (Web) API offers easy integration into LOB applications, web-based scanning applications, or mobile devices.
Or you can accomplish more by seamlessly integrating with Kodak Capture Pro Software or Kodak Info Input Solution to maximize connectivity, automate indexing, and take your information further.

Easy to Stay Productive

Stay up and running with consumable tracking with user notification from the large color touch screen and know you are meeting the highest level of environmental standards with our EPEAT Gold certifications. And protect your investment and performance now and in the future with award-winning service and extended warranties from Kodak Alaris.
