

MSI MPG Ai1300TS PCIE5 power supply unit 1300 W 24-pin ATX ATX Black

Model: 306-7ZPUB11-CE0

Manufacturer: MSI

EAN: 4711377406130

Product Code: 1722456

R9,943

The Reliable Engine of Your PC Build

Support MSI Exclusive GPU Safeguard+, it’s the comprehensive and precisely protection, while under of computer using scenario.

SiC MOSFETs

Server-grade material, resulting in 10% less waste heat.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

ATX 3.1 READY

Handle up to 240% total power excursion, 300% GPU power excursion.

TITANIUM

Energy efficiency, offering up to 94% efficiency.

2 x 12V-2x6

Comes with 2 x native 12V-2x6 connectors.

STABLE POWER DELIVERY

Minimizing the +12V regulation fluctuation into ±1%.

FULL DIGITAL DESIGN

The MCU controller can quickly manage dynamic adjustments.

NIGHT SOUND LEVEL

Low noise design.

ZERO FAN MODE

Fan completely stops under low load, delivering silent operating environment.

FDB FAN BEARING

To improve thermal performance and reduce noise, choose a larger, longer-lasting fan.

100% SERVER-GRADE

105°C CAPACITOR

High quality Japanese capacitor for the stability and durability.

ALLOY COPPER

For safety, offering superior current handling capability for higher current surges.

SAFETY CABLE

UL certified cable, robust high current handling capability.

PROTECTION

Equipped with multiple protection mechanisms, ensuring your system operates worry-free at all times.

DUAL COLOR 12V-2x6

CONNECTOR

Allowing you to quickly confirm connection tightness.

EMBOSSED CABLE

More Flexibility and Bendability, easy for the cable management.

CABLE ORGANIZER

Pre-installed with cable organizers, streamline the cable management process, resulting in a cleaner pc build.

POWER SUPPLY

OVERVIEW

Overall real-time current, output wattage, energy efficiency.

REAL-TIME DASHBOARD

Monitor the PSU detail message, and exporting selected real-time data.

COOLING WIZARD

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Zero fan mode switch, and Allows users to customize the fan curve.

MSI Center

MSI’s exclusive MSI Center software allows you to customize power settings and monitor real-time electrical data through an intuitive graphical interface; please connect the USB Type-C cable to sync your power supply information.

Afterburner

MSI Afterburner (version 4.6.7 Beta 2) now supports individual pin current monitoring. This update also allows you to limit GPU power consumption automatically whenever the GPU Safeguard+ protection is triggered.
