InLine USB 3.2 cable, USB-C male angled to USB-A male, black, 0.3m

Model: 35717W

Manufacturer: INLINE

EAN: 4043718307456

Product Code: 1722742

R830

Compatible with modern USB-C devices: Connects current devices with USB-C ports to existing USB-A infrastructures – ideal for IT environments.

Up to 10 Gbps data rate:USB 3.2 Gen.2x1 enables fast data transfer for external SSDs, docking stations, or peripherals.

3A charging power for mobile working: Supports Power Delivery with up to 15 W – ideal for smartphones, tablets, or smaller devices.

Angled USB-C plug for tight installations: Facilitates use in confined spaces such as racks or behind monitors.

Reliable signal transmission thanks to double shielding: High-quality construction with twisted, shielded wires for interference-free operation.

The InLine® USB 3.2 cable with angled USB-C plug to USB-A plug connects modern USB-C devices to

classic USB-A ports – ideal for work environments where older infrastructure meets new devices. With a data rate of up to 10 Gb/s (USB 3.2 Gen.2x1), the cable transfers large amounts of data quickly and reliably. Support for USB Power Delivery with up to 3A at 5V allows safe and efficient charging of compatible devices. The angled USB-C connector ensures space-saving connections in tight installation situations. The double-shielded, twisted cable structure minimizes interference and ensures stable signal transmission – even in demanding industrial or professional applications. Thanks to different length options, the cable offers high flexibility in use, whether in the office, in IT rooms, or on the road in technical service.

USB standard: USB 3.2 Gen.2x1
Connector: USB-C connector (angled) to USB-A connector
Max. data rate: 10 Gb/s
Supports USB Power Delivery up to 3A / 5V (15W)
Cable construction: Double shielded, twisted wires
Available lengths: 0.3 m / 0.5 m / 1 m / 1.5 m / 2 m
Color: Black
