Teltonika WIFI DuaL-Band SMA antenna

Model: PR14RD35

Manufacturer: TELTONIKA

EAN: 5704174538721

Product Code: 1722866

R709

The Teltonika PR14RD35 is a network antenna designed to enhance wireless signal strength and coverage. With an antenna gain level of 3.5 dBi, it operates efficiently across frequency bands of 2.4-2.5 GHz and 5.1-5.95 GHz, making it suitable for a wide range of wireless communication applications. The antenna features an impedance of 50 Ω, ensuring compatibility with a variety of network equipment. Equipped with an RP-SMA connector with a male gender, this antenna facilitates easy and secure connections to compatible devices. The linear polarization of this model helps in reducing signal interference and improving the quality of the transmission. The dimensions of the antenna are compact, with a width of 160 mm, allowing for easy installation in various environments without requiring extensive space. Each pack contains one antenna, providing a straightforward solution for users needing to enhance their network performance. This antenna is a functional choice for those looking to improve their wireless system's efficiency and connectivity.
