R1,754

FRITZ!Smart Energy 201 – smart plug with a new format

Smart energy management has never been so discreet and so easy. With the FRITZ!Smart Energy 201 you can switch connected devices fully automatically, and monitoring the energy consumption is child's play. Perfect for getting started in the FRITZ! Smart Home.

Simpler design meets efficiency

With its compact form, the FRITZ!Smart Energy 201 can be used in practically any socket without blocking adjacent sockets. The simple design blends in subtly with every home environment.

At the same time, the FRITZ!Smart Energy 201 is particularly energy-efficient: Its energy consumption remains below 0.2 W. This means that you optimize the energy consumption in your home network without consuming resources unnecessarily.

Saving energy even smarter

With the FRITZ!Smart Energy 201 you can detect every opportunity to save energy in your home network. The precise energy measurement tells you exactly how much your devices are consuming, and with the FRITZ!App Smart Home you can monitor your energy consumption at all times. The improved hardware now enables you to safely and reliably control even devices with high energy consumption of up to 3680 W (16 A).

Create individual routines and scenes and have your devices switched intelligently. As you would expect from FRITZ!, configuration and operation are particularly easy and convenient.

Automatic updates, support and data security: FRITZ! has got it

Your FRITZ!Smart devices receive regular automatic updates with new functions and improved security. FRITZ! means something special: FRITZ!Smart Energy 201 comes with long product maintenance. Automation and the control of the FRITZ! Smart Home are performed with the FRITZ!Box; if desired, access from on the go is possible, for instance with the FRITZ!App Smart Home.

And should you ever have a question – Our friendly support is always happy to help.
