QNAP QXP-10G2U3A interface cards/adapter Internal USB 3.2 Gen 2 (3.1 Gen 2)

Model: QXP-10G2U3A

Manufacturer: QNAP

EAN: 4713213518113

Product Code: 1723696

R2,623

The QNAP USB 3.2 Gen 2 Expansion Card provides speeds of up to 10Gbps – double that of USB 3.2 Gen 1 – to greatly boost data transfer speeds. With two ports, the QNAP USB 3.2 Gen 2 Expansion Card provides compatibility with newer, faster USB 3.2 Gen 2 devices to accelerate file transfers and backup. The QNAP USB 3.2 Gen 2 Expansion Card can be installed in either a QNAP NAS or Windows/Ubuntu PC.

Experience USB 3.2 Gen 2 SuperSpeed+ up to 10Gbps

The QNAP USB 3.2 Gen 2 Expansion Card provides speeds of up to 10Gbps – double that of USB 3.2 Gen 1, and 20 times that of USB 2.0.

Expand your Storage by Connecting to a QNAP USB JBOD

By using a QNAP USB 3.2 Gen 2 Expansion Card in your QNAP NAS or PC, you can connect a QNAP USB JBOD to back up and expand your storage. The USB 3.2 Gen 2 Expansion Card supports both QNAP NAS and Windows/Ubuntu PCs without requiring drivers. You can configure RAID and monitor disk health using the QTS/QuTS hero Storage & Snapshots Manager on a QNAP NAS, or by using the QNAP JBOD Manager utility on your computer.
