R2,093

Compact yet fully featured

The UltraBoard 950 V2 Wireless Bluetooth keyboard is designed for portability and ergonomic efficiency. Its compact size makes it easy to carry and promotes healthier working habits. The keyboard features a scissor mechanism, 19mm key centre distance, and concave keys with dark lettering on a white background, ensuring precise and comfortable typing. Additional features include hotkeys, integrated multimedia keys, and status LEDs for a more efficient workflow.

Better became the best!

The UltraBoard 950 Wireless V2 uses USB-C as the new standard for charging, supplied with a USB-C to USB-C cable. An included USB-A adapter provides additional flexibility, allowing you to charge the

keyboard with any device or port.

The UltraBoard 950 Wireless V2 boasts improved key-to-frame contrast for better visibility and enhanced key readability for easier navigation. The frame colour has been adjusted to reduce reflections and wear marks, while the FN keys have been redesigned to highlight primary functions more clearly.

Slim and ergonomic design

The compact design of the UltraBoard 950 V2 Wireless Bluetooth keyboard encourages a better working posture by eliminating the traditional numeric keypad. This reduction in size decreases the distance to the mouse, thereby reducing physical strain on the forearm and shoulder. The integrated number field can be accessed via the NumLock key when needed.

Multi-device pairing

The UltraBoard 950 Wireless V2 Bluetooth keyboard can pair with up to five devices simultaneously, offering unmatched flexibility. It is compatible with Windows, Linux, and macOS, making it ideal for diverse operating environments.

Ergonomic background

A compact keyboard without the numeric keypad, which allows placing the mouse closer to the keyboard. Research shows that 90% of users do not use the numeric keypad, if ever. With a compact keyboard you work more comfortably, because it lowers the reaching distance to the mouse (Cook C. et al., 1998). This lightens the load on the forearms and shoulder. Dark letters on a clear background make reading easier (ISO 9241) and contribute to higher productivity (Snyder, 1990).

Reflective-free design

The UltraBoard 950 V2 Wireless Bluetooth features a matt surface with dark letters on a light background, reducing reflections and improving readability. The fold-out feet provide an optimal viewing angle for those who do not use the ten-finger typing system. The stylish design enhances usability and productivity.

Comfortable and quiet typing experience

The keys of the UltraBoard 950 Wireless Bluetooth have a scissor mechanism, that makes sure that you can type more comfortably and easily. The advantage of those kind of keys is, that they are quieter and require less force to press. The scissor mechanism guarantees, that the user still recognizes the pressure point of the keys while typing, and at the same time does not have to apply to much key pressure force to press down the keys.

Portability and long battery life

Weighing only 430 grams and measuring 285mm x 147mm x 19mm, the UltraBoard 950 V2 Wireless Bluetooth is highly portable. It comes with a protective case and features rechargeable batteries with a lifespan of up to four weeks, making it ideal for on-the-go use.

Optimized key design

The keys of the UltraBoard 950 V2 Wireless Bluetooth are designed with a 19mm key centre distance according to DIN EN ISO standards, offering better orientation. The concave shape of the keys fits perfectly to the fingertips, while the convex space bar enhances precision and minimizes typing errors.

Comprehensive functionality

The UltraBoard 950 V2 Wireless Bluetooth includes four practical hotkeys for quick access to browser tabs, emails, screenshots, and the integrated numeric keypad. Multimedia keys and four status LEDs further enhance functionality, indicating power status, NumLock, CapsLock, and battery level.
