BlitzWolf BW-Voyager1 watch black

BlitzWolf BW-Voyager1 is a smartwatch created for active people who value functionality, durability and modern design. Equipped with a precise GPS system, extensive health functions and an extremely powerful battery, it will prove its worth both during everyday use and in extreme conditions. It's ideal for athletes, travelers and anyone who wants to keep track of their health and activity.

AMOLED - readable screen in all conditions

The smartwatch features a 1.43-inch AMOLED display with a resolution of 466 × 466 pixels, providing an extremely clear and detailed image. With a brightness of up to 1,000 nits, the screen remains legible even in bright sunlight, while a responsive touchpad ensures smooth operation of the device.

Accurate GPS positioning

The BlitzWolf BW-Voyager1 features dual-frequency GNSS and support for six positioning systems (GPS, GLONASS, GALILEO, NAVIC, QZSS, BDS) for extremely precise tracking. The "Return to Start" function will help you safely return to your starting point, no matter where you are.

10 ATM water resistance - ready for any challenge

The smartwatch was designed with active people in mind, so it has a water resistance rating of 10 ATM. This means you can swim, dive and engage in water sports with it without worrying about damage. Its rugged design means it can handle even harsh conditions.

Military toughness

The zinc alloy case and Panda Glass provide outstanding resistance to bumps, drops and scratches. The smartwatch meets the rigorous MIL-STD-810H durability standards, making it perfect for extreme situations such as climbing, trekking and intense workouts.

24/7 health monitoring

The watch offers advanced health features that allow you to monitor your body's health around the clock. This includes measurement of heart rate, blood oxygenation level (SpO2), stress level and sleep phase. In addition, built-in breathing exercises help reduce tension and improve well-being.

More than 170 sports modes

The smartwatch supports more than 170 built-in sports modes, allowing you to accurately track a variety of activities - from running to cycling to extreme sports. You can analyze your performance in real time and customize workouts to meet your goals.

Bluetooth and phone calls

With a built-in speaker and microphone, the watch allows you to make phone calls via Bluetooth. You can receive and make calls without having to reach for your phone - this is especially useful while driving or training.

Powerful battery - up to 65 days of use

The BlitzWolf BW-Voyager1 is equipped with a 500 mAh battery, which lasts up to 65 days in standby mode. In normal use, the operating time ranges from 5 to 10 days, and up to 30 days in power-saving mode. Magnetic charging allows for quick and convenient energy replenishment in about 2 hours.

Smart features and connectivity

The watch works with the GloryFitPro app to offer notifications for calls, messages and apps. It also has features such as an alarm clock, weather forecast, find phone and "Do Not Disturb" mode. It supports Bluetooth 5.3, which ensures a stable connection to your phone and smooth data synchronization.
