Advanced LED technology delivers high brightness for well-lit spaces that accommodate up to 40 people

Designed for Ceiling Mounts

Helps avoid shadows and keeps the meeting room table clean

30,000 Hours Lifespan

Up to 30,000-hour life span (Eco Mode) and less power consumption

Instant On/Off

Delivering immediate full brightness with no waiting times

Eco-friendly

Mercury-free LED light source with no lamp replacement

Superior Image Quality

LED High Brightness for Sharp and Vivid Images

LH750 LED projectors offer 5,000-lumen brightness for presentations in lit medium sized conference rooms up to 40 people. Leveraging the 98% Rec.709 colour coverage and the H-K effect, the LH750 offers higher colour saturation that faithfully represents meeting presentations with clear text and vivid images.

Superior Contrast with DLP Technology

DLP technology performs at a superior contrast level compared to 3LCD projectors. This makes the numbers and details much better defined against the brighter white background or in dark scenes.

Crystal-Clear Graphics and Text

Present your brilliant ideas with clarity via the LH750's high-quality all-glass low-dispersion lens array with a special coating that minimises chromatic aberration.

Exclusive Picture Modes for Modern Presentations

A perfect fit for infographic-heavy presentations, BenQ’s Infographic Mode is great for showcasing text and graphics in detail with more saturated and lively colours.

Designed for Installation Flexibility

Designed for medium sized meetings rooms and conference rooms, the LH750 is easy to install.

Big Zoom for Flexible Installation

The 1.6X big zoom feature offers a wide range of throw distances to significantly increase installation flexibility for diverse mounting options in various public display scenarios.

Image Calibration for Easy Projection Alignment

The LH750 is equipped with auto vertical keystone correction and two-dimensional keystone correction. Corner Fit control can adjust each corner respectively for perfectly aligned image geometry.

Digital Image Shrinking and Shift

To get the image perfectly aligned to the screen, the LH750 includes both Digital Image Shrink and Digital Shift.

Wireless Scalability for Enhanced Flexibility

Wireless Casting from Smart Devices

To meet the growing BYOD trend, BenQ's optional Wi-Fi dongle lets meeting participants project Full HD multimedia content wirelessly from any mobile devices. The wireless technology is able to accommodate up to four presenters in four split screens for highly collaborative and effective meetings.

High Reliability, Easy Maintenance

Up to 30,000-Hour Lifespan with No Lamp Replacement

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. BenQ LH750 LED projectors guarantee 30,000 hours of maintenance-free operation, saving costs for lamp replacement and maintenance and creating value that exceeds the expenses of 15 lamp replacements over the life of the projector. LH750 LED projectors are capable of consistently impressive brightness for up to 30,000 hours under Eco mode.

Brilliant Colours for Brilliant Ideas

With LED technology that provides rich saturated colours and sharp lifelike imagery, the LH750 REC.709 colour gamut standard ensures each detail is conveyed with stunning accuracy.

Saving Smarter for the Best Visual Performance

BenQ next-gen SmartEco adjusts light power intelligently, saving 60% more energy than traditional Eco Mode.

Centralised Remote Management

BenQ In-house LAN-Based Control System

BenQ DMS Local is Device Information and Management software for use with the Windows operating system that also supports Agent Mode, allowing you to integrate your DMS Local settings with the DMS Cloud.

Network/Web Control

BenQ LH750 LED projectors are compatible with AMX and PJ Link control systems for convenient system integration with various third-party components for centralised management of multiple projectors at less cost.
