Product Code: 1724014

R784

DURABLE PROTECTION FOR YOUR VILLA DOOR STATION

The Hikvision Rain Shielder is expertly designed to provide robust protection for the KV6114 and KV6124 series villa door stations. Constructed from high-quality polycarbonate (PC), this protective shield ensures durability and longevity, safeguarding your door station from harsh weather conditions. With a surface mounting installation, it seamlessly integrates with your existing setup, enhancing both functionality and aesthetics. Its precise dimensions of 194.49 mm x 84.62 mm x 47 mm (7.66" x 3.33" x 1.85") make it an ideal fit for various installations, ensuring a snug and secure fit.

WEATHER-RESISTANT PERFORMANCE IN EXTREME CONDITIONS

Engineered to withstand extreme temperatures ranging from -40 °C to 60 °C (-40 °F to 140 °F), the Rain Shielder is perfect for diverse climates. It operates efficiently in humidity levels from 10% to 95% without condensation, making it suitable for both dry and humid environments. This resilience
