Four extra-lavish sandwiches can be prepared at the same time in the SANDWICH-TOASTER Quadro. The indicator light not only signals that the device is in operation, but also when the perfect temperature has been reached. The SANDWICH-TOASTER Quadro is locked using the heat-insulated handles. The cable storage is located in the base, so that the SANDWICH-TOASTER Quadro can be stored in a space-saving manner after the non-stick plates have been conveniently cleaned. The operating instructions provide recipe ideas for delicious sandwiches.
