Featuring a nimble Computing Engine and intuitive Touch Console, the TRS10 bundle simplifies deployment and enables instant collaboration in meeting rooms of any size. Tailored for those seeking a reliable, secure, and cost-effective Microsoft Teams Rooms experience, this solution ensures seamless communication.

Enterprise-grade Security

An integrated Trusted Platform Module (TPM) 2.0 ensures safer, more secure computing with hardware-based authentication and tamper detection. Additionally, the 12th generation Intel processor delivers advanced security features, including Intel Threat Detection Technology and Control-Flow Enforcement. These are further complemented by the Windows 11 IoT Enterprise operating system with Smart App Control (SAC), enhancing overall device security.

Seamless Collaboration Control Hub

The MPC310-W31-TU TeamJoin Computing Engine powered by a 12th Gen Intel® Core™ processor, optimises hybrid collaboration. With built-in Microsoft Teams Rooms software on the latest Windows 11 IoT Enterprise, it facilitates easy connection, content sharing, and collaboration in calls and meetings. The integrated cable management streamlines the setup, simplifying maintenance for IT staff.

Full Meeting Control at Your Fingertips

Enjoy intuitive touch control with the MRC1010-TN TeamJoin Touch Console. Featuring Direct HDMI Ingest connectivity for BYOD presentations, this 10.1” Full HD anti-glare touch display offers an easy-to-use Microsoft Teams interface that allows you to start, join and manage meetings—all from your fingertips.

Start Meetings with a Simple Move

The MRC1010-TN TeamJoin Touch Console automatically activates the computing engine and ViewSonic display upon detecting human presence, ensuring the meeting is ready to start the moment you are.
