Samsung HW-LS50H Black Wired & Wireless

Model: HW-LS50H/EN

Manufacturer: SAMSUNG

EAN: 8806099004057

Product Code: 1724428

R6,770

Design that defines the art of sound

Dot Design by Bouroullec

Created by Erwan Bouroullec, The Dot is more than a design element. Placed at the heart of the speaker, it becomes the point where music flows through, bringing together timeless beauty and cutting-edge technology.

Sophistication in its simplest form

Unique Design

Bouroullec’s minimal design gives Music Studio 5 a calm, refined presence. Defined by clean geometry and smooth curves, it blends naturally into your decor with a refined sense of balance.

Enjoy high-quality sound, no strings attached

Wireless Music Streaming

Enjoy flexible wireless listening with Music Studio 5. With built-in Wi-Fi and Bluetooth support, it

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. connects easily to a range of music streaming services, letting you play your favorite tracks with ease.

Compact in size, unexpectedly rich sound

Powerful Sound

Crafted to bring sound and art together, Music Studio 5 is designed to enrich your space both visually and acoustically. Powered by Samsung’s AI Dynamic Bass Control and precision waveguides, it delivers clear, balanced sound with depth that fills the room naturally.

Hear the depth of detail

Hi-Resolution Audio

Powered by Hi-Resolution Audio, Music Studio 5 captures the depth and detail of your favorite tracks with refined precision. With enhanced decoding, signal processing and output of contents up to 24-bit/96kHz, delicate overtones and rich harmonics come through with striking clarity.

A sound experience you can feel around you

Dolby Atmos®

Experience sound with added dimension through Dolby Atmos. With layered audio and sharper detail, it creates a more lifelike, fuller soundstage that brings greater depth and realism to your listening experience.

Elevate your spatial audio experience

Eclipsa Audio

Experience Eclipsa Audio, 3D spatial audio technology that delivers immersive, powerful soundscapes like never before.

Sound tuned to the scene

AI Adaptive Sound

Get the optimal listening experience for each scene with AI Adaptive Sound. Music Studio 5 recognizes the type of content you’re watching and automatically adapts audio settings to produce clear voices and detailed sounds.

Realistic sound through minimal distortion

AI Dynamic Bass Control

Get smooth, clear bass with AI Dynamic Bass Control. Using pre-trained machine learning, Music Studio 5 analyzes distortion caused by the woofer unit’s vibration and corrects it — so you can enjoy sound that stays true to the original content.

Next-level harmony in immersive surround sound

Q-Symphony

Experience sound that moves as one. Q-Symphony analyzes each scene and automatically detects the position of your TV and Music Studio 5 speakers, calibrating and synchronizing them for optimal performance throughout the room — supporting up to five speaker units.

Stable sound every time you switch content

Auto volume

Auto Volume keeps the volume level smooth and balanced across different content sources by analyzing incoming audio signals in the background. No more ups and downs — just smooth, comfortable listening as you hop between shows, games, or live TV.

Sound calibrated for your space to perfection

SpaceFit Sound Pro

Enjoy stunning sound that's tuned to your room with SpaceFit Sound Pro. This feature analyzes the space and adjusts the audio accordingly — even optimizing bass — for maximum clarity and immersion. Now you can enjoy the most ideal sound in any space or environment.

Enjoy consistent and balanced sound wherever you are

Wide Sweet Spot

Thanks to the built-in waveguide, Music Studio 5 disperses audio evenly, delivering consistent clarity and volume across a wider listening area — so sound feels natural and well-balanced from more positions in your space.

Catch every word without distractions

Active Voice Amplifier (AVA) Pro

Experience flawless dialogue through Active Voice Amplifier (AVA) Pro. It senses background noise in your space and on screen, then enhances voices so speech stays clear, focused and easy to follow.

Engineered by sound innovation experts

Samsung Audio Lab

Crafted for exceptional sound, Immersive is tested and tuned at our California Audio Lab. World-class audio engineers apply advanced acoustic technologies to deliver balanced, room-filling sound that feels natural and immersive.

Connect and control your sound the easy way

Samsung Sound App

Enjoy seamless setup and discovery, total control, and a personalized experience that unifies your Samsung sound ecosystem — let the app handle the hard work as you breeze through effortlessly.

Connect multiple devices for an amplified sound experience

Group Play

Bring sound together for a fuller experience. Group Play wirelessly connects Music Studio 5 with other speakers into one synchronized system. Link up to 10 compatible speakers in total and enjoy powerful, shared sound for moments spent together.

Double the sound, double the experience

Stereo Play

Experience sound with twice the depth and presence. Through Stereo Play, you can pair two Music Studio 5 units to create a wide, room-filling soundstage. With left and right channels working in harmony, audio feels more immersive, detailed and balanced.

Compatible with SmartThings App

SmartThings App

The SmartThings app seamlessly connects your devices, creating a unified ecosystem that enhances everyday living. It ensures your daily moments flow naturally as one connected experience.

Get straight into the music with double tap access to Spotify

Spotify Tap

Play music instantly with the world’s first device featuring Spotify Tap over Wi-Fi. Double tap to launch a playlist of recommended songs tailored to your taste. Want something different? Double tap again to get a fresh playlist — no phone needed.
