DJI Power Car Charger (SDC) (12V/24V)

DJI Power Car Charger (SDC) (12V/24V), model CP.DY.00000050.01, is a versatile accessory for charging the DJI Power 2000, DJI Power 1000 V2, DJI Power 1000, and DJI Power 500 power stations directly from a car outlet. The input specifications cover a range of 12–30 V DC, and the maximum output power is 100 W, enabling fast and efficient charging. The charger is designed to operate at temperatures ranging from -10° to 45° C (14° to 113° F), making it reliable in various conditions. The accessory consists of an XT60-to-SDC adapter and a car power outlet for the XT60 power cable. Additionally, the XT60 to SDC module can function as a solar panel adapter (MPPT), allowing you to connect Zignes 100W/120W solar panels, which provides even greater versatility and convenience while traveling.

In the box

- XT60 to SDC module × 1
