

# Klevv CRAS C910G 1 TB M.2 PCI Express 4.0 NVMe 3D TLC NAND

Model: K01TBM2SP0-10G

Manufacturer: KLEVV

EAN: 4895194901860

Product Code: 1724900

## R4,425

**M.2 NVMe PCIe Gen4x4 Solid State Drive**

**Built to Shield Tuned to Cool**

**Ultra-efficient Graphene-copper Heatsink**

Maximizes cooling capacity for stable, high-speed operation

## Intelligent SLC Caching Algorithm

Enhanced durability and read/write performance with the application of SLC caching technology.

## Excellent Thermal Throttling Algorithm

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Maintain constant temperatures within SSD to ensure data safety and integrity.

## S.M.A.R.T. for Condition Monitoring

Maximize product stability through the built-in S.M.A.R.T. (Self-Monitoring, Analysis, and Reporting Technology).

## LDPC ECC & Global Wear Leveling

Provide satisfying data retention/protection and overall lifespan extension.

## Powerful AES 256-bit Encryption

Support AES 256-bit Hardware-based Encryption to ensure superior data security.

## Turbo Speed to Power Your Workflow and Fuel Your Play

Unlock advanced performance with the CRAS C910G. Built on PCIe Gen4 technology, it delivers blazing read and write speeds of up to 5200/4800MB/s. Perfect for seamless multitasking, high-pressure workloads, and next-level gaming.

## Advanced Cooling with Graphene-copper Composite Heatsink

The CRAS C910G is equipped with a composite heatsink combining copper’s thermal conductivity and graphene’s rapid heat dispersion. This hybrid solution helps stabilize internal temperatures, allowing the system to operate smoothly under extended stress.

## Unshaken Speed Relentless Stability

Stay fast, stay cool. The CRAS C910G keeps temperatures in check with an efficient heat-reducing design, ensuring your SSD runs at optimal speed without thermal slowdowns. From massive file transfers to performance-heavy tasks, enjoy uninterrupted, high-speed operation every step of the way.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

## Dive Straight into the Fight Less Waiting, More Gaming

Boot faster, load games quicker, and stay immersed without delays. With the CRAS C910G, system responsiveness is instant — keeping you focused on the action, not the loading screen.

## Greater Endurance, Longer Lifespan 3D NAND for Smarter Storage

Built with advanced 3D NAND architecture, the CRAS C910G offers higher capacity, better endurance, and improved power efficiency. Its elevated TBW rating ensures years of dependable storage for everyday use.

## Hassle-free Fit Perfect for a Wide Variety of Systems

With its compact M.2 2280 design and ultra-slim 0.26mm heatsink, the CRAS C910G fits perfectly into desktops, mini PCs, and laptops. Enjoy effortless installation — no extra parts, no clearance issues.

## Includes FREE Backup & Migration Software

The KLEVV CRAS C910G SSD is equipped with an activation key Acronis True Image, offering comprehensive disk-image backup and universal restore functionalities for effortless data transfer. Additionally, it boasts an active defense mechanism capable of detecting and preventing WannaCry attacks. By constantly monitoring changes in computer data files, it promptly alerts users of any suspicious activities, ensuring robust data security with confidence.

## Compliant with International Standards

All KLEVV products are designed and tested to ensure compliance with regulations/standards that are Internationally-recognized.
