Product Code: 1725133

R3,793

The HP G6 docking station is designed to streamline your workspace with versatile connectivity options. Offering HDMI, DisplayPort, and multiple USB interfaces, this docking station enhances productivity by allowing dual and even triple display setups. Enjoy fast data transfer and reliable networking capabilities with 2.5 Gigabit Ethernet support, ensuring a seamless connection for all your devices. With an operating temperature range of 0°C to 35°C, it performs under varying conditions.

Equipped with security features like a Kensington nano security slot and an LED light bar, the HP G6 docking station combines functionality with safety. Its robust power adapter provides stable performance, supporting diverse use cases, whether at home or in a corporate environment. This docking station is ideal for anyone looking to maximize efficiency and simplify their digital workspace.
