D-Link USB-C M.2 NVMe/NGFF SSD Enclosure

Model: DSP-111

Manufacturer: D-LINK

EAN: 790069478666

Product Code: 1725177

R1,469

Easily turn your M.2 NVMe or SATA SSD into a high-speed, portable external drive.
D-Link M.2 NVMe / NGFF SATA SSD Enclosure Adapter, USB-C 3.2 Gen 2 (10 Gbps) to NVME PCI-E SATA M-Key/(B+M) Key Solid State Drive External Enclosure, Aluminum, Supports UASP Trim for SSDs 2230/2242/2260/2280

Transform your internal SSD into a powerful, portable storage solution with the D-Link USB-C M.2 NVMe/NGFF SSD Enclosure (DSP-111). Designed for both NVMe and SATA M.2 SSDs, this sleek and durable enclosure supports capacities up to 4TB—perfect for storing and transferring large files on the go. With USB 3.2 Gen 2 connectivity, you'll enjoy blazing-fast data transfer speeds up to 10 Gbps via USB-C. Its rugged aluminum alloy casing resists scratches and everyday wear, while the advanced triple-layer heat dissipation system keeps things cool during heavy use. Compatible with a wide range of M.2 SSD sizes (2230 / 2242 / 2260 / 2280) and interfaces (M-key and B+M key), the DSP-111 offers broad compatibility across Windows, macOS, Linux, and Android devices—making it an essential tool for professionals, content creators, and tech enthusiasts alike.
