If your computer is performing slower than you like, replacing the HDD with an SSD is one of the most cost-effective changes you can make. It will completely change your computing experience. SSDs are faster because they call up data more rapidly, so they accelerate boot-up times and apploading.

Reliable 3D NAND

GOODRAM CL100 gen. 3 SSD provides best-in-class performance and reliability. The refreshed disk is equipped with 3D NAND Flash memory. Detailed firmware guarantee full software data protection, consistency and security during use.
