The Juiceo slow juicer is the easy answer to healthy, delicious juice. Featuring cold press technology, it ensures maximum juice extraction with minimal waste, all while preserving the natural flavors, colors and nutrients of your favorite fruits and vegetables! With a single speed and reverse function for unblocking fruit and vegetable pieces it's easy to use, while an adjustable pulp control function lets you control how much pulp is in your juice - lots, little or none at all! Additional convenient features include a generously sized juice jug and pulp collector for uninterrupted juicing sessions, a drip stop function to help keep countertops clean, and quiet technology for non-disruptive juicing any time of day. Rounding it all off are dishwasher-safe removable parts for easy clean-up and a compact, elegant design for easy storage on any countertop. With Juiceo slow juicer, unlock the goodness!
