EXPERT 3 max FOR MULTI-USE IN TILING

Removing a damaged tile without re-doing the whole wall is one of the great advantages of the Starlock multitool – and with the EXPERT 3 max it’s even easier. With this one ingenious blade, you can cut out old grout, reach the tightest corners, and sand out the mortar.

This is the one oscillating multitool blade you need for tiling: a deceptively simple design that makes your job easier and ensures maximum efficiency. With the Bosch EXPERT 3 max Multitool Blade AVZ 70 RT4, you always have the right Starlock accessory to hand.
