Bosch T 308 BFP Jigsaw blade Bimetal 3 pc(s)

Model: 2608900547

Manufacturer: BOSCH

EAN: 4059952537719

Product Code: 1725713

R1,151

EXPERT HARDWOOD 2-SIDE CLEAN FOR HIGHEST PRECISION TEAR-FREE CUTTING LAMINATED WORKTOPS

Ensuring the ‘clean side’ of a jigsaw cut is on the visible part of the work material has always been an art among joiners and woodworkers. Sometimes you can turn the workpiece over, other times the jigsaw itself can be held upside down. Or you could use the EXPERT ‘Hardwood 2-side clean’, that offers a perfect tear-free cut on both sides thanks to its counter-directed teeth. Made from Bi-Metal – a strip of high-speed steel bonded onto a flexible steel blade to combine strength and flexibility – the Bosch EXPERT ‘Hardwood 2-side clean’ Jigsaw Blade is robust enough to cut laminated chipboard kitchen tops or hardwood. Available for tear-free straight cuts (T308BF) and for particularly accurate angle tear-free cuts (T308BFP)
