Vibrant Colors in Bright Living Rooms

Harness the power of 3200lm high brightness and 600,000:1 contrast ratio and let the stunning visuals captivate you, even in brightly-lit living rooms. Thanks to BenQ's precision-calibrated 95% Rec.709 color coverage, only beautifully vibrant images will be displayed on a large screen.

Striking Contrast and Darker Details

BenQ's Dynamic Function adjusts the light source, enhancing contrast and depth perception. The TK710STi's responsive laser light ensures stable brightness transitions, rendering crystal-clear details in every scene.

Game with Bold 4K HDR Panorama

True 4K (3840 x 2160) UHD with 8.3 million distinct pixels renders each fiber of hair and clothing with subtle highlights and rich texture, enhanced by HDR10 for superb contrast and scenic depth. Let the game captivate you with expansive immersion.

Lowest Input Lag in the World

Ultra-fast 4ms* low input lag converts your sight, hearing, and thoughts into action with zero delay. (* 4ms input lag in 1080p@240Hz, 8ms in 1080p@120Hz and 2K@120Hz, 16ms in 4K@60Hz)

Specialized HDR Game Modes

Introducing new HDR game modes: Customize your gaming experience based on the game type for optimal visuals.

HDR-RPG

Immerse in cinematic realism with vibrant colors.

HDR-FPS

Detect threats rapidly with enhanced dark details.

3D keystone

The 3D keystone eliminates trapezoid effects when projecting from various room locations for ease and convenience.

1.2x zoom

Maximize space effortlessly with the TK710STi's short throw design and 1.2x zoom. Enjoy big-screen entertainment without the complications of intricate installations.

Flexible Installation

You can place the projector on a table, on a shelf, or mount it on the ceiling as shown below.

Google-licensed Android TV

Powered by Google-licensed Android TV, the TK710STi offers a variety of online media, enabling you to indulge in true 4K content streaming from platforms such as Netflix. Enjoy your favorite movies and shows in 4K with the intuitive interface.

Universal Connectivity Expand Your Universe

BenQ lets you game on your terms. Whether it’s on a PS5/PS4, Switch, or Xbox Series X, dual HDMI 2.0b universal connectivity has you covered. (HDMI 2.0b 4K@60Hz / 1080p@120Hz compatible) Additionally, eARC enables 7.1-channel and Dolby Atmos audio to transmit unaltered full-resolution signals to your sound system through a single HDMI cable.

Explore the Potential of New Laser

TK710STi’s laser technology delivers superior saturation, high contrast, and long-lasting vivid colors with up to 20,000 hours of light source life, without the hassle of lamp replacement.
