MSI PCI Express Steel Armor slots are secured to the motherboard with extra solder points and support the weight of heavy graphics cards. When every advantage in games counts, Steel Armor shields the point of contact from electromagnetic interference.

Extended Heatsink

Extended Heatsink enlarges the surface of heat dissipation, ensuring even high- end processors to run in full speed.

M.2 Shield Frozr

With double ball bearings fan to keeps M.2 SSDs safe while preventing throttling, making them run faster.

7W/mK Thermal Pad

High quality 7W/mK MOSFET thermal pads and extra choke thermal pads ensure all cores running in high performance.

10-Layer Server Grade PCB

10-layer PCB with 2oz thickened copper provides higher performance and long-lasting system stability without any compromise.
