way to carry your files from place to place. It comes with a physical built-in write-protect switch to protect your data and safely connect to any computer. Lock the drive in “read-only” mode, and view your files in a protected mode so that they cannot be overwritten. This feature also prevents viruses and malware from having any chance of infecting the drive when locked. Flip the switch back to unlock mode and you can make adjustments to your files just as you would with any other flash drive.

The FlashBlu30 USB flash drive offers lightning-fast USB3.0, while maintaining compatibility with USB2.0. Connecting the Kanguru FlashBlu30 to a USB3.0 supported USB port provides superior read/write speeds for quick, easy and convenient transfer of data.

Use the Kanguru FlashBlu30 anywhere for easy transport of your MP3s, documents, email files, and pictures anywhere you want to go!
