Bosch Spur Auger Bit Sets

Model: 2607019322

Manufacturer: BOSCH

EAN: 3165140379090

Product Code: 1727103

R1,902

The Auger Bit is ideal for fast drilling-accuracy when producing through-holes, pre-drilling for rafter nails and drilling deep dowel holes in wood. The heavy-duty self-feeding tip pulls the bit through completely, which allows for quick and effortless precision-drilling. Straight holes and a high chip removal rate and increased speed are made possible by the bit's optimised low-friction flute geometry with a solid centre. Its optimised scoring spur and precision-ground main cutting edge produce accurate holes. It is ideal for use in the ancillary building trades, for carpenters and roofers, and is suitable for soft and hard wood This drill bit has a hexagonal shank system and works with all drill drivers with a 13-mm chuck.
