

Conceptronic OZUL09BE 65W USB PD Charger

Model: OZUL09BE

Manufacturer: CONCEPTRONIC

EAN: 4015867245088

Product Code: 1727499

R1,312

The Conceptronic OZUL09BE 65W USB PD Charger is designed to deliver fast, efficient, and reliable power for a wide range of USB-C devices. Featuring USB Power Delivery (PD) 3.0 technology, it enables high-speed charging to keep your devices powered throughout the day, whether at home, in the office, or on the go.

With up to 65W output, it is suitable for charging laptops such as MacBook Air, Dell XPS 13, and Lenovo ThinkPad series, as well as tablets like iPad Pro and smartphones including Samsung Galaxy and Google Pixel devices. Support for Programmable Power Supply (PPS) allows the charger to dynamically adjust power output for improved charging efficiency and reduced heat during operation.

Built with comprehensive safety protection, the charger safeguards connected devices against overload, short circuits, and overheating. Combining performance, broad compatibility, and dependable protection, the 65W USB PD Charger is a practical and reliable choice for modern USB-C charging needs.
