The Ice Beaver may not be very big, but don’t underestimate him. He has strong teeth, and he’s not afraid to use them. His scars tell the story of his battles. He emerges victorious in most battles. That’s probably thanks to the thick ice armour on his back. Cool!

What a grumpy brute! The Ice Beaver is usually in a foul mood and easily irritated. You can tell he often gets into fights. His entire face is covered in deep scars. That makes him look even more dangerous than he already is. With ice-cold eyes, he glares at his opponent and bares his powerful teeth. He is protected by thick ice armour on his back and has a beaver tail made of ice floes. It's best to steer clear of this ELDRADOR® resident!
