The mighty Thunderbird™ stands on its strong, broad feet with sharp claws. Huge wings spread out wide. It looks great! With three pairs of wings along its body, the Thunderbird™ can whip up powerful storms as flies through the sky! It is covered from head to tail in brown, grey and white feathers, with two extra-long tail feathers that are particularly impressive.

The large Thunderbird™ is quite aggressive and is not easily tamed. It soars through the skies, whipping up storms with its powerful trio of wings. An impressively large creature, its long tail feathers are coveted by wandmakers, because they contain magical powers. But the spirited Thunderbird™ does not give up its beautiful plumage willingly. Who will help the Thunderbird™ defend its feathers?
