

Thrustmaster Sol-R 5 Base Black USB Analogue / Digital PC

Model: 2960948

Manufacturer: THRUSTMASTER

EAN: 3362932916833

Product Code: 1728076

R3,696

BASE FOR EXPERIENCED PILOTS

Sol-R 5 Base accommodates detachable Thrustmaster grips, while offering more control than a standard joystick base. With its interface of various buttons, you can access your aircraft’s essential functions more quickly without using your keyboard/mouse. The included stability supports and attachment points make the base extremely well-suited for use on a desk or in a cockpit.

PRECISE AND DURABLE

The base has two axes of movement (X, Y) incorporating H.E.A.R.T. (HallEffect AccuRate Technology) sensors with 16-bit precision. Its mechanism has been optimized after more than 10 years of

expertise to improve its durability. It generates linear resistance in all directions, making the joystick versatile for all types of flight simulation. Its built-in mini-throttle lets you assign a third axis.

23 PROGRAMMABLE ACTIONS

Sol-R 5 Base features a wide variety of buttons, to correspond to flight controls: 4 toggle switches, 8 pads, 1 mini-throttle, 1 selector switch and 1 rotary knob. Its pads are derived from DJ controllers, for a premium feel and reliable activation. The RGB LEDs are individually customizable, for a style that’s tailor-made for each gamer.
