Model: 245523

Manufacturer: EQUIP

EAN: 4015867242698

Product Code: 1728783

R821

The Equip 245523 2-Port 30W GaN Slim USB PD Charger is a high-performance, compact power solution designed for modern digital lifestyles. Powered by advanced GaN (Gallium Nitride) technology, it achieves superior energy efficiency and reduced heat generation compared to conventional silicon chargers. This allows for a slimmer and lighter design, making it easy to carry in a pocket, purse, or laptop bag—perfect for home, office, and travel use.

Featuring one USB-C Power Delivery (PD) port and one USB-A port, the charger provides flexible charging options for multiple devices. The USB-C PD port delivers up to 30W of fast charging power, making it ideal for smartphones, tablets, handheld game consoles, and even smaller laptops or ultrabooks. The USB-A port supports standard charging for accessories such as wireless earbuds, Bluetooth speakers, or legacy devices, ensuring broad compatibility.
