R1,038

From frustration to flexibility

You know the drill: you want to connect a screen, use a mouse, plug in your headset and read a hard disk but your laptop has just too few (or just the wrong) ports. Result: cable chaos on your workstation and a lot of frustration. The compact USB-C Hub puts an end to that. Connect up to seven devices without plug stress, heat problems, loose adapters or clutter on your desk.
