D-Link C36 wireless router 2.5 Gigabit Ethernet Dual-band (2.4 GHz / 5 GHz) White

Model: C36/E

Manufacturer: D-LINK

EAN: 790069481963

Product Code: 1729012

R2,476

An essential Wi-Fi 7 upgrade for your broadband home

The C36 BE3600 Wi-Fi 7 Router delivers faster, more stable Wi-Fi for everyday homes, simply and affordably. With speeds up to 3.6 Gbps, it ensures smoother streaming, quicker downloads, and reliable coverage, without a complicated setup.

Faster, Smoother, and More Reliable with MLO

The C36 features Multi-Link Operation (MLO) technology, which boosts speed, improves reliability, and reduces latency by transmitting data across multiple bands simultaneously. MLO Mesh applies this technology to Mesh networks, strengthening the connection between the main router and its extenders for consistently reliable whole-home coverage.

Stronger Signal, Wider Coverage

Equipped with five external high-gain antennas, including a dedicated RX antenna, the C36 boosts signal strength, expands coverage, and reduces dead zones. Adjustable angles let you fine-tune reception for optimal performance.

2.5 Gbps High-Speed Wired Connectivity

With a 2.5 Gbps WAN port and 3 x Gbps LAN ports, the C36 delivers fast, stable, high-speed wired connections for PCs, smart TVs, and gaming consoles.

Mesh Expandable

Experience seamless, wall-to-wall connectivity by adding more C series units to create a whole-home Mesh Wi-Fi for expanded coverage, smooth roaming, elimination of dead zones, and keeping devices connected as you move around your home.

Enhanced Network Security

The C36 provides advanced security to protect your network and personal data, featuring WPA3 encryption, cybersecurity certification, parental controls, and a guest network, all designed to keep your network more secure.

Simple Setup and Management

Set up and manage your network in minutes with the D-Link FALCON app[2]. Configure Wi-Fi, Parental Control, and Health Mode, while automatic Firmware Over-The-Air (FOTA) updates keep your router secure and up to date.
