Philips portable SSD combines ultra-performance with a very compact aluminum ‘space grey’ housing. The drive is based on flash memory, making it reliable and quiet in operation. Compared to traditional HDDs, the SSD consumes less power and produces less heat, resulting in a longer lifespan and lower power consumption, extending the battery life of your notebook.

## 5 times faster than an external hard drive

This Philips SSD is 5 times faster than an external hard drive and is the ideal solution for storing and exchanging 4K Ultra-HD videos.

## Ultra-slim and elegant design

The design of the Philips external SSD is compact and modern. Small and light enough to take anywhere.

## Universal compatibility

The Philips portable SSD can be used in conjunction with devices that support the USB 2.0, USB 3.0, USB 3.1, or USB 3.2 standards. Developed for use with Windows PCs, Macs, tablets, and smartphones.
