HEXA85+ PRO series applies DC to DC modules to improve the reliability for greater compatibility as well as low ripple noise to reduce interference of system components for a prolonged system lifetime.

+12V Single Rail Design

Designed for power-intensive VGA cards, no problems to any overloading condition.

Optimal Cooling

HEXA 85+ PRO series comes with a 120mm quiet fan and a highly efficient ventilation fan guard to guarantee low noise operations without compromising its cooling efficiency.

Japanese Electrolytic Capacitors

Japanese electrolytic capacitors ensures safety on spare parts for prolonged lifespan and reliability.

Supports High-end Motherboard

For gaming enthusiast, the HEXA 85+ PRO 650W featured dual CPU power connectors for high-end motherboards and stable CPU power delivery.

Energy Related ErP/Eup 2013

Green Power! The total AC power consumption less than 5Vsb rail to meet the new EU Regulation ErP 2013 for modern systems.
