

StarTech.com Cat6 Patch Cable - Shielded (SFTP) - 2m, Gray

Model: N6SPAT2MGR

Manufacturer: STARTECH

EAN: 065030861977

Product Code: 1731657

R857

Deliver high-performance Gigabit network connections, free of noise and EMI/RFI interference

This Shielded Cat6 cable meets or exceeds all Category 6 cable specifications to ensure reliable Gigabit network connections. And the cable is shielded to protect your network against electromagnetic interference (EMI/RFI) and system noise to provide the perfect solution for fast and safe network connections.

Reliable Cat 6 Gigabit connections

Constructed with 100% copper and foil-shielded twisted-pair wiring, this cable delivers high-quality performance. It’s designed to keep the data signals traveling through your network free from interference, so it's perfect in environments that are prone to large amounts of EMI.

The 50-micron gold connectors deliver optimum conductivity and eliminate signal loss due to oxidation or corrosion.

Secured network connections

For easier cable runs, the snagless connectors protect the RJ45 clips during installation, making them less prone to snagging or breaking. This ensures a sturdy connection by preventing the cable from becoming loose from the plug.

Plus, the moulded boots offer strain relief that stops the RJ45 connector termination points from bending at sharp angles, which reduces the risk of damage to the cable that could decrease network performance.
