DISPLEX Premium SMARTWATCH GLASS (FULL BODY ALL-IN-ONE PROTECTOR)
High-Performance All-Round Protection for Your Apple Watch
Protect your Apple Watch with one of the toughest solutions available: DISPLEX Premium SMARTWATCH GLASS features genuine ultra-hard 10H tempered glass – far superior to conventional plastic films – delivering durable protection against scratches, impacts and screen shattering.
Its slim, transparent polycarbonate frame absorbs shocks and adds full body protection without compromising the sleek look or handling. The integrated sealing ring ensures IP68-certified resistance to water and dust, making it ideal for sports, outdoor use and daily wear.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

An advanced anti-fingerprint coating keeps your screen clean and clear, while all touchscreen and button functions remain fully operational. Charging works seamlessly without needing to remove the case. With its Snap-On mounting design, installation is quick, tool-free and leaves no residue when removed.

Key Benefits:
- Ultra-hard 10H tempered glass for maximum impact resistance
- Full body design protects screen and case in one seamless solution
- IP68-certified waterproof and dustproof seal
- Full touchscreen, button and charging compatibility
- Quick Snap-On mounting – no adhesives, no residue

Experience uncompromising protection – engineered by DISPLEX.
