USB-C to HDMI and VGA Adapter to connect a laptop, MacBook® or PC to a dual-display setup - including USB-A peripheral and PD charging port

The USB-C to HDMI & VGA 4-in-1 Docking Converter with Power Delivery establishes a fast, simple and convenient link between newer USB Type-C equipped media source (laptop, PC, MacBook®, Chromebook™, computer, tablet, etc.) and existing HDMI and VGA displays (monitors, TVs and projectors). You'll enjoy resolutions up to 4K@30Hz on the HDMI connection, up to 1080p@60Hz on the VGA connection, or up to 1080p@60Hz on each display of a dual-display setup. Create a mini-workstation by adding any USB 3.2 Gen 1 (formerly USB 3.0) peripheral such as a mouse, keyboard, hub, external memory device and more with the integrated USB-A port. This multiport Docking Converter is easy and quick to install. No complicated configuration or setup is required to enhance the functionality of your USB-C device. Its all-in-one design achieves a compact, integrated solution that eliminates unnecessary cables, tangles and clutter to keep installations and workspaces neat and orderly.

Up to 87 W charging power with USB-C Power Delivery (PD)

The included USB-C PD port lets you charge your notebook with power up to 87 W while simultaneously charging your other mobile devices, such as smartphones or tablets, through the USB-A port. The Power Delivery function also provides faster charging than standard chargers since it determines the power needs of compatible devices and supplies it at the quickest and safest rate.

Take your phone to the big screen

Connect any Android 9 and later smartphone that supports video output over USB-C DP Alt Mode to enjoy your apps and media even more. Watch a video on your monitor or flip through the slides of your presentation - all from your phone.

A Multiport Adapter that's made to go where you go

The very compact aluminum housing makes this USB-C to HDMI & VGA Docking Converter the perfect travel companion. With a footprint of only 62 x 40 x 15 mm (2.44 x 1.73 x 0.59 in.), it's small enough to fit in an outer notebook bag pocket, so you can create a mini-workstation for your laptop wherever you're going.
