High-definition performance for personal computing._x000D_

Manhattan DisplayPort Cables provide a single-cable solution that delivers both high-definition digital audio and video signals between desktop and notebook computers and an output device. With 21.6 Gbps bandwidth (HBR2), Deep colour and 24-bit, 8-channel uncompressed audio capability, the 20-pin connector is small, compact and ideal for use with DisplayPort-equipped computers, flat-panel displays, slim-profile devices and many consumer electronics including Blu-ray players and game consoles. Full foil and braided shielding, moulded boots with strain relief, protective PVC jackets and gold-plated connections help Manhattan DisplayPort Cables provide maximum conductivity and clear, crisp signal transmissions with reduced EMI interference and distortion.
