REALISTIC

Crafted in the image of the real F/A-18C Hornet™ flight stick handle, this 1:1 scale replica officially licensed by Boeing is built with industrial-grade materials for a maximum product lifespan.

Its metal structure, also inspired by the fighter aircraft’s flight stick, replicates the original handling sensations for perfect immersion in games: now you can finally live out your dream of being a fighter pilot in the most realistic way possible.

VERSATILE

Featuring 19 action buttons including an ultra-realistic 2-step trigger and a varied, complementary range of features, the F/A-18C Hornet™ HOTAS Add-On Grip lets you control the skies with ease, and

carry out blistering ground attack missions in all flight simulation games.

It’s also the perfect solution for gamers looking to try their hand at space or vintage flight-style games.

FULLY COMPATIBLE

The F/A-18C Hornet™ HOTAS Add-On Grip is compatible with Thrustmaster joystick bases.

The choice of a vintage style is perfect for gamers who want to use the handle with the legendary HOTAS Cougar* base. For a more modern look, the F/A-18C Hornet™ HOTAS Add-On Grip can be used with the HOTAS Warthog* base (* sold separately).
