Dahua Technology Lite HAC-HDW1500TQ-IL-T Dome IP security camera Indoor & outdoor 2880 x 1620 pixels Ceiling/wall

Model: HAC-HDW1500TQ-IL-T-0280B-DIP

Manufacturer: DAHUA

Product Code: 1732354

R1,864

The Lite Series is a great choice for consumers looking for high-quality monitoring products at a reasonable price. Its low cost and high performance make it ideal for residential areas and SMB solutions. This series is equipped with a wide range of technologies, such as full color and starlight, providing various solutions for different scenarios.

Two-way Talk

With its built-in high-sensitivity microphone and high-power speaker, the camera enables two-way communication through a mobile app.

Smart Dual Light

With its smart dual-light mechanism, the camera automatically turns on white light when the Perimeter Protection or SMD Plus function of an AI XVR detects a target in the rule area, capturing clear and vivid images. When the target leaves the area, the camera switches from white light to IR light to significantly reduce light pollution.

Smart Light+

Equipped with advanced LEDs and beam-processing technology, the camera effectively reduces interference from stray light, ensuring concentrated illumination within the lens’s field of view. This allows it to produce clear images that reveal fine details of targets even in low-light conditions.

Advanced 3DNR

Dahua’s advanced 3DNR technology reduces image noise with little to no impact on image sharpness, especially in poor lighting conditions. It detects noise and compares sequential frames to effectively reduce it while also saving bandwidth and storage space.

Protection

IP67: The camera passed rigorous dust and immersion tests. Its enclosure is dust-proof and waterproof and can function normally while immersed in water up to 1 m deep for 30 minutes.

4 Signals over 1 Coaxial Cable

HDCVI technology supports four signals (video, audio*, data, and power) transmitted simultaneously over a coaxial cable. Dual-way data transmission allows the HDCVI camera to interact with the XVR to perform actions such as sending control signals and triggering alarms. HDCVI also supports PoC,

making installation quick and easy.

*Audio input is available for select HDCVI camera models.

Smart Area Lighting

Automatically adjusts brightness intensity and exposure for the left and right areas of the video based on the proportion and position of targets, revealing more details in the image.

Super Adapt

With its intelligent algorithm, the camera automatically adjusts its parameters to provide optimal performance and vivid images.
