R3,260

This Lindy 10m USB Active Extension Cable is a high performance active cable that allows access to USB Type C peripherals like webcams or storage devices over long distances. With support for data transfer speeds of up to 5Gbps this extension cable is perfect for transferring large data volumes quickly and reliably.

This 10m extension cable can be used standalone or - for distances up to 38m - as part of the Lindy USB 3.0 Active Extension System Pro (No. 43157, 43158, 43229 or 43361). Please note that only No. 43157, 43158, 43229 or 43361 (depending on the maximum required distance) can be connected directly to your computer as first unit. The final part of the extension shall always be the 10m USB Type A to C Active Extension No. 43376.

A USB to DC adapter cable for power supply is included. Usually a 5V 1A power supply of a smartphone is enough to drive the connected device.For USB devices with high power demands,
