StarTech.com Fiber Optic Cleaning Pen, LC Fiber Cleaner for LC/CS Connectors and Ports, For 800+ Cleanings

Model: FOCPENLCCS2

Manufacturer: STARTECH

EAN: 065030936675

Product Code: 1732457

R2,592

Ensure optimal performance with this practical fiber optic cleaning pen, designed for LC and CS fiber connectors. It provides quick, effective cleaning for reliable signal quality in critical network environments.

Maintain Clean Fiber Connections

This Fiber Optic Cleaning Pen effectively removes dust and particles to prevent contamination that can compromise connection reliability and signal quality. Because optical fiber is highly sensitive to contamination, keeping fiber ends clean is essential for maintaining consistent performance, especially in high-bandwidth connections where even minor particles can disrupt signal integrity.

Quick and Simple Operation

Cleaning fiber connector ends is simple with the intuitive one-click mechanism. Each press advances the cleaning thread and rotates the tip to sweep the connector end face, ensuring a fresh cleaning surface with every use.

For Professional Fiber Installations

This Optical Fiber Cleaning Pen is suited for fiber optic network maintenance, server racks, and data centers. Its compact, lightweight design is ideal for technicians working with high-density fiber setups, including patch panels and transceivers. Compatible with both APC and UPC-polished fiber ends, it supports a wide range of LC and CS connections.
