Manufacturer: FAIRPHONE

EAN: 8718819377146

Product Code: 1732581

R3,182

The most sustainable phone is the one that lasts - and that goes for the display as well.

So we designed the brilliant 6.3’ Full HD+ screen to give you an immersive viewing experience, that’s easy on the eyes and easy on the planet.

It has built in drop and scratch resistance, thanks to super tough Corning Gorilla Glass. But get this - if you do ever manage to break your Fairphone 4’s display, you can just replace it yourself. At home, with a single screwdriver, in a couple of minutes.

It comes with a grey or green protective rim, to complement the sleek aluminium sides of your Fairphone 4 - or feel free to mix and match the colors.
