

MikroTik Cloud Router Switch 326-4C+20G+2Q+RM (RouterOS L6)

Model: CRS326-4C+20G+2Q+RM

Manufacturer: MIKROTIK

EAN: 4752224008930

Product Code: 1732715

R18,782

The **MikroTik CRS326-4C+20G+2Q+RM** is a high-performance network switch designed to meet the demands of modern networking environments. Equipped with the **RouterOS L6** system, this device offers a versatile combination of advanced routing capabilities and switching functions, making it an ideal choice for both small and large networks. Its robust design is tailored for **rack mounting**, ensuring seamless integration with standard 19-inch server racks.

With a total of **4 SFP+ ports** and **20 Gigabit Ethernet ports**, the **CRS326-4C+20G+2Q+RM** provides ample connectivity options for various devices. The inclusion of **2 QSFP+ ports** allows for high-speed connections, making it suitable for data-intensive applications. This model is part of MikroTik's **Cloud Router Switch** line, which is known for its reliability and performance in

demanding networking scenarios.

Designed for flexibility, the **CRS326-4C+20G+2Q+RM** supports a wide range of networking protocols and features, including VLAN, QoS, and advanced security options. Its user-friendly interface allows for easy configuration and management, making it accessible for both novice and experienced network administrators. The switch's ability to handle complex networking tasks ensures that it can adapt to the evolving needs of any organization.

In summary, the **MikroTik CRS326-4C+20G+2Q+RM** is a powerful and versatile network switch that combines advanced routing and switching capabilities in a single device. With its solid construction, extensive connectivity options, and support for various networking features, it stands out as a reliable solution for businesses looking to enhance their network infrastructure. This model is an excellent investment for those seeking performance and flexibility in their networking equipment.
